Professional Summary

Motivated Cybersecurity Engineering student with strong foundational knowledge in ethical hacking, penetration testing, Linux systems, and web application security. Hands-on experience in vulnerability assessment, network reconnaissance, and cybersecurity testing through internship training. Currently preparing for Certified Ethical Hacker (CEH) certification and passionate about securing digital systems.

Education

- Bachelor of Engineering (B.E.) – Cybersecurity
- Mahendra Engineering College, Tamil Nadu

Technical Skills

- Linux Operating Systems
- Ethical Hacking Fundamentals
- Penetration Testing
- Network Scanning & Enumeration
- Web Application Security Testing
- Vulnerability Assessment & Analysis
- Basic Reconnaissance & Security Auditing

Certifications & Training

- Certified Ethical Hacker (CEH) – In Progress
- Cybersecurity Internship Training – Ozone Cyber Security

Internship Experience

- Performed network scanning and reconnaissance to identify security weaknesses.
- Conducted web application security testing for common vulnerabilities.
- Practiced ethical hacking and penetration testing methodologies in controlled environments.
- Learned injection attack techniques and vulnerability analysis.
- Developed understanding of real-world cyber threats and defensive strategies.

Areas of Interest

- Cybersecurity Engineering
- Ethical Hacking
- Penetration Testing
- Network & Web Application Security
